Tools

Postman VSCode Codex

Soft Skills

- Teamwork
- Problem Solving

WORK EXPERIENCE

SOFTWARE ENGINEER 08/2024 - NOW
MEKONG CONNECTOR COMPANY LIMITED

- Developed and maintained production web and mobile applications using React Native, ReactJS, Next.js, TypeScript, and FastAPI.
- Built CMS, admin dashboard, booking, and business management features for real-world client projects.
- Integrated RESTful APIs for content management, ticket booking, customer management, and operational workflows.
- Participated in frontend implementation, API integration, testing, deployment, and production maintenance.
- Improved usability and performance by optimizing data fetching flows, responsive layouts, and reusable UI components.

PHP DEVELOPER INTERN 05/2023 - 07/2023
NGUYEN GIANG ONLINE MEDIA COMPANY LIMITED

- Maintained and updated an e-commerce website for a watch business using PHP and frontend technologies.
- Supported UI updates, marketing banners, and website content adjustments for promotional campaigns.

HIGHLIGHT PROJECT

Minh Long Museum Website 03/2026 - NOW

- **Description:** A public-facing museum website with an integrated CMS and booking management system, allowing visitors to explore museum information, view exhibitions and experiences, book museum tours online, while administrators can manage multilingual website content and review booking history.
- **Role:** Fullstack Developer
- **Responsibilities:**
 - Developed a responsive public museum website using Next.js, TypeScript, and Tailwind CSS.
 - Built a custom CMS for managing website content such as homepage banners, introduction sections, exhibition spaces, visitor experiences, souvenirs, news, events, contact information, and general settings.
 - Implemented multilingual content management for Vietnamese and English website content.
 - Developed live preview workflows to allow administrators to review content changes before publishing.

FOREIGN LANGUAGE

English : Intermediate

- Built booking management features for administrators to review and track visitor tour reservations.
- Designed database models and data access layers using Prisma and PostgreSQL for CMS content and booking records.
- Integrated media management workflows for uploading and displaying images/videos across website sections.
- Improved admin usability with structured forms, section-based content editing, and responsive UI layouts.

Auto Seller Application

01/2026 - NOW

- **Description:** A sales and customer management application helping businesses automate customer engagement, messaging campaigns, and sales workflows.
- **Role:** Mobile Developer
- **Responsibilities:**
 - Developed and maintained mobile application features using React Native.
 - Integrated APIs for customer management and communication workflows.
 - Implemented notification and messaging functionalities.
 - Collaborated with backend developers to optimize application performance.

Minh Long Artwork Recognition App

09/2024 - NOW

- **Description:** A mobile application that allows visitors to scan and identify museum artworks, providing detailed information and interactive experiences.
- **Role:** Mobile Developer
- **Responsibilities:**
 - Developed mobile application using React Native.
 - Implemented camera integration and artwork scanning workflows.
 - Integrated APIs to retrieve artwork information and related content.
 - Improved user interaction and visitor engagement experience.

Minh Long Admin Dashboard

09/2024 - NOW

- **Description:** An internal administration platform used to manage museum operations, ticket bookings, exhibitions, surveys, and content management.
- **Role:** Frontend Developer
- **Responsibilities:**
 - Developed administration dashboard using ReactJS and TypeScript.
 - Built management modules for tickets, exhibitions, surveys, banners, and system settings.
 - Implemented reporting and operational monitoring interfaces.
 - Integrated RESTful APIs and optimized data management workflows.
 - Improved usability and responsiveness for internal users.
